EASY FRESH FAN & COVER

AT A GLANCE

Aerosol, CFC & propellant free

Dry fragrance technology - no liquids, spills or sticky residues

Battery operated fan propels scent around the room for excellent coverage

Batteries last 2-3 months depending on quality and amount of light in the room

Made from fully recyclable EVA

Discreet - looks like a smoke detector

Coverage up to 25m squared

Versatile - position on a wall or ceiling at any height

It's time to ditch the aerosols and go greener. The discreet Easy Fresh fan air freshening system can be placed on a wall or ceiling without any spills thanks to it's dry fragrance technology, and the unique design ensures that fragrance from the recyclable cover is propelled around the room for the full 30 days. Light activated to conserve battery power, the Easy Fresh fan unit is designed to work harder as the cover nears the end of its life, to ensure an even fragrance delivery. Features low battery and cover change warning light on day 30 and an audible bleep on day 33, just in case you forget to change the cover.
